

WORLD ENVIRONMENT DAY 2021

ECOSYSTEM RESTORATION

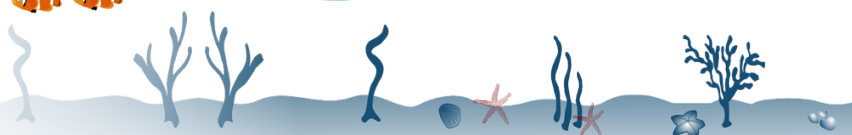

A call to conserve, prevent, halt and reverse the damage to ecosystems and maintain their rich biodiversity

Take Action Towards Positive Change

- Control consumer consumption patterns
- Develop greener business models
- Produce and build more sustainably
- Invest in repairing the environment
- Legislate to protect natural resources
- Clean up beaches and other natural areas
- Restore wetlands

- ❖ **Oceans and seas are key economic sectors for countries**
- ❖ **Forests create large sinks for CO₂**
- ❖ **Rivers supply food, water and energy**
- ❖ **Coral reefs provide habitats for plants and animals**

A Healthy Ecosystems Benefits All

- Protects & improves people's livelihoods
- Counteracts climate change
- Regulates diseases
- Reduces the risk of natural disasters
- Stops the collapse of biodiversity
